MASTER SOUND LIBRARY DISKETTE INDEX
July 13, 1983

As of June 27, 1983, sounds will be available in predetermined pairs only, to expedite the filling of orders and to generally eliminate the need for dealing with those wretched library numbers. When ordering, please identify sound combinations by their diskette numbers (and titles, if desired) only. Those sounds with "*" before them are new additions. Prod Set = Production Set diskettes.
